Ascending Higher

3

ROAT 3 Ascending Higher

- I have shared some of my journey in the ROAT and the preparation needed.
- Prepare my heart to feel what God feels about creation.
- Prepare my mind to believe what God believes about creation.
- Mature me in sonship to be able to function in and out of time and space.

ROAT 3 Ascending Higher

- I eventually engaged the 3 ambassadors of their races several times in the anteroom beyond beyond.
- That was really just the beginning; after I produced the law of reintegration and wholeness I had many other dimensional experiences.

ROAT 3 Ascending Higher

- The wonderful message of the reconciling, restoring, resurrecting Creator who is abundantly overflowing with love and abundant life is available to all races and beings, across all dimensions, within all of creation.

ROAT 3 Ascending Higher

- Son, no other races or beings carry or have the possibility of carrying the fullness of our DNA as the sons of God.
- As none were made in the full image and likeness of their creator as coheirs and co-creators as sons.

ROAT 3 Ascending Higher

- Many were created with aspects of Our likeness and many were created with aspects of Our image but none other than mankind has Our DNA.
- No other races have the capacity to be Our dwelling place or have the capacity to dwell within Us like mankind but all have the capacity to be restored to relationship and know love.

ROAT 3 Ascending Higher

- Son, you have been given the mandate to be an ambassador to those races who have made contact.
- There will be more, once the testimony of possible freedom is released.
- I still had no idea what this would really entail.

ROAT 3 Ascending Higher

- Son, mankind as coheirs and co-creators is the key to freedom, the light of love; and it is the expression of your glorious identity as sons that will be the frequency that restores hope and sets that part of creation free from its bondage.

ROAT 3 Ascending Higher

- You have met on neutral ground; now enter the dimensional portals and radiate love's light, which will release the truth of true sonship to those whose hearts are longing for the revealing of the sons of God.

ROAT 3 Ascending Higher

- I am unveiling truth and revelation to those who are maturing and this includes the ability to access My consuming fire to rescue those there and to engage in the restoration of those who have fallen.
- The fallen ones include those of what you call the angelic realm but there are also many other fallen dimensions.

ROAT 3 Ascending Higher

- I had three encounters over a period of time in 2018 where I engaged each of those initial dimensions as an ambassador of hope.
- Each was connected to our dimension via a Babel-like tower that had transmitted the worst knowledge of independence and evil.

ROAT 3 Ascending Higher

- Each dimension was in a specific bondage associated with an aspect of fallen identity present on earth but enhanced to the ultimate extent.
- The frequency of sonship and hope is now being transmitted.
- I engaged each dimension and sowed hope, disrupting the status quo.

ROAT 3 Ascending Higher

- I eventually met 12 other races from other dimensions, 6 humanoid and 6 non humanoid; and later met 25 other dimensional beings during other encounters.
- God is looking for volunteers as the task of restoration of dimensions requires union.

ROAT 3 Ascending Higher

- I have also learned to access the dimensions through portals that are present in each of the constellations that are mostly guarded.
- When you access the portal, it leads to many other connected dimensional portals.
- These encounters were taking longer and consuming much of my time.

ROAT 3 Ascending Higher

- As I was participating in this process I had encounters that deepened my experience and understanding of my identity and the union I had with the Father and the need to join with others.
- These encounters were transformative and greatly expanded my consciousness towards union.

Vision Destiny 2021

- 18th August 2020
- Transcendent and immanent.
- Son, rest in Our unconditional love and just be with Us as We are with you.
- We are in your spirit as you are within the eternal now.

Vision Destiny 2021

- We are within your soul as you are within the 4 faces of God.
- We are within the garden of your heart as you are within the garden of Our heart.

Vision Destiny 2021

- We are within the fabric of your being so you can be connected to the fabric of creation as you have experienced.
- We are active within the Merkabah and your energy gates as you are active within the Chambers of Destiny and Creation.

Vision Destiny 2021

- Son, learning to be within I AM and aware that I AM is within you is part of the true maturing process so you can continually be face to face, heart to heart and mind to mind.
- As your consciousness awakens, you will become more enlightened and rest will be your state of being.

Vision Destiny 2021

- Son, you can learn to live in the quantum moments where all time exists and increase your ability to expand and contract time into that moment of experience.
- As you learn to live in that rest state, every moment takes on increased significance as it could be an hour, a day, a week, a month or a year.

Vision Destiny 2021

- The only limitation is your consciousness' capacity to believe the possibilities and choose them.
- Son, there is no difference in choosing a quanta of a millisecond or a millennia: only in your mind is there limitation.

Vision Destiny 2021

- Practice expanding your mind's ability to choose what happens in a quantum moment so that you retain the knowledge of the experience.
- You can begin with your daily entering rest and then when we engage face to face I will open your eyes to see and know as we spend more quality time together.

Vision Destiny 2021

- Son, as you mature in this reality you can continually bring the future into your present just as you have with the restoration of the fallen ones.
- There are missions and quests that we have for you that would normally take months, even years, that will require that you can fulfil them in the moment and stay living in rest.

Vision Destiny 2021

- Son, all time is living and active and is at your disposal so choose this reality whenever you need to but don't get trapped in the moment.
- Others that you interact with during these moments may not yet have the capacity to retain the knowledge of these experiences.

Vision Destiny 2021

- You cannot relate to others on fast forward and rewind if they do not have this capacity yet; so use this for missions, not everyday life.
- It is easy to become disconnected from everyday life when your relationship to time changes.

Vision Destiny 2021

- 19th August 2020
- I practised entering rest in a quantum moment. As my mind expanded the moment in fast forward, I felt the process of living loved, loving living and living loving in an instant.

Vision Destiny 2021

- Son, you have done well. Come walk with Me.
- We walked to beyond beyond and emerged in the dimensional anteroom.
- There are others you must meet who are representatives, as they also have felt the frequency ripples of hope that have been released.

Vision Destiny 2021

- There were many who came to form a small crowd, creating an atmosphere of excitement and apprehension.
- They were beings of all forms, so I reached out to them with my mind with a welcome and an introduction.

Vision Destiny 2021

- They dispensed with the niceties and asked:
- Can we be free? We all know we have been deceived and we all have seen glimpses of the light of sonship and the hope for freedom.
- Yes, you and your whole dimension can be restored if you become ambassadors of hope to them.

Vision Destiny 2021

- I looked at the Father, who seemed to be hidden from their sight, and He said “Practise what you have learned.”
- So one by one I engaged each dimension and race in a quantum moment of time.

Vision Destiny 2021

- I brooded in the Cradle of Life, became the voice of God and released the grace of the Quantum Lumens; then I went into their dimension, saw their bondage and the connection tower to our dimension, used it to transmit hope and started a revolution.

Vision Destiny 2021

- This process repeated for all 25 dimensions: all engagements happened in an expanded moment and I retained the knowledge of each encounter.
- This ability increases our capacity for legislation greatly and makes the possibility of the ROAT so much more inevitable.

Vision Destiny 2021

- The Father then took me into the heavenly realm of eternity and it was like the whole place functioned in quantum moments.
- The Father showed me that He could see and feel all things in all moments for all creation.

Vision Destiny 2021

- Son, as Our sons mature to become ascended fathers, they too will have this capacity to connect and care for all they create.
- This place was different to the transcendence of the eternal now dimension as it is within time and immanently connected.

Vision Destiny 2021

- Son, there is so much We want to show you and impart but this must be a relational process that you grow through.
- Son, make sure you are not limited and restricted by time entanglement and keep practising quantum moment expansion daily but don't be tempted to try to do so with our times together.

Vision Destiny 2021

- We are infinite and although We can choose to exist in all moments of time We cannot be expanded.
- I had so many questions fill my mind at that moment but stayed in rest and just enjoyed being immersed in the oracles of the Father's heart, feeling their passion for creation and its restoration.

Vision Destiny 2022

- 11th March 2021
- During a restoration government ascension we engaged a fiery portal in Cancer and I saw dimensional portals, each arranged like a Merkabah and each made of different substances.

Vision Destiny 2022

- I felt the energy, a frequency like a homing beacon, from each group of portals; and looking at them in turn, I looked into each dimension and saw many beings of all sorts and forms, from so many different dimensional realities.

Vision Destiny 2022

- I felt the overwhelming need to release mercy into the portals. As I did, Nancy saw some very small beings coming through one portal. They were like midgets with transparent heads with arcing light filaments.

Vision Destiny 2022

- I saw them also and we attempted to communicate with them, asking them who they were and what that wanted.
- They revealed that they had been reaching out to me in my sleep and I began to release declarations of mercy over them.

Vision Destiny 2022

- They identified themselves as the guardians of Servici and they were at our service, so we commissioned them to be carriers of mercy to the beings in the other dimensions of those portals.
- Servici is the collective name for the portals of the constellation of Cancer.

Vision Destiny 2022

- They revealed that they were also engaged through the constellation of Cancer, which is characterized by humility and service.
- The Father later revealed that each constellation is a hub for dimensional portals that were all very different.

Vision Destiny 2022

- Son, you have experienced freely the power and depth of Our mercy and now you have emissaries to take mercy to the dimensions to raise hope and expectation.
- Use your mandate wisely to freely give what you have freely received to bring freedom and restoration dimensionally.

Vision Destiny 2022

- I went back through the fiery portal again on my own. I felt slightly overwhelmed with the task and I began to think about how I would choose which portals to engage first.
- I resisted expanding quantum moments at that point.

Vision Destiny 2022

- I immediately felt a strong frequency drawing me to the water portals but also other frequencies coming from each of the portals.
- I began to brood over each of the portals and the beings that existed in those dimensions and as I did I felt the desires of the Father's heart.

Vision Destiny 2022

- Always wait until you have the Father's heart before acting.
- I engaged the matrix of light to interface with the intentions of the Father's heart where I saw possibilities before me so I chose the reality that I could engage all of the portals that drew me.

Vision Destiny 2022

- I was greatly energised and I was able to expand the quantum moment to engage each portal in turn to release the frequency of triumphant mercy. This was different from other engagements as I only felt mandated to release mercy.

Vision Destiny 2022

- Each of the portals were connected like rings, joined in a Merkabah-like formation, and each portal accessed diverse beings that looked different but had similar or resonating frequencies.
- 12 groups of 7 portals: I engaged 84 in total.

Vision Destiny 2022

- I engaged each type of portal and each connected portal of that substance: water, air, fire, earth, energy, colour, light, sound, crystal, metal etc. in turn, where I was met by representatives and released the mercy of the intentions of the Father's heart.

Vision Destiny 2022

- I was filled with joyous wonder at the creativity expressed in each portal and each type of being within them.
- The manifoldness of God's wisdom and creativity was so amazing that I was transfixed in awe and wonder.

Vision Destiny 2022

- They all had one thing in common. In spite of the amazing differences in form, they drew me to release mercy, as they all had stories that moved me to empathise and feel great compassion.

Vision Destiny 2022

- They all felt isolated and disconnected from home and from us as sons, only having the merest echo of a long-past memory of the creational union that they had once been part of.

Vision Destiny 2022

- The triumphant mercy and limitless grace of a loving God had brought those memories to life and hope was instilled for restored union once again.

Vision Destiny 2022

- 16th March 2021
- Son, come fly with Me.
- I knew the familiar voice of the Spirit and I willingly and excitedly accepted the invitation as I knew that this would be an awesome adventure.

Vision Destiny 2022

- We began to fly through the solar system, pausing as we passed by the planets, slowing down enough that I could feel the frequency that they were emitting.
- I believe every planet, star and galaxy is created with a unique frequency representing it.

Vision Destiny 2022

- I felt their unfulfilled purpose and a sadness that I had never contemplated before but I knew they need to be restored.
- Yes, it is mankind's responsibility to bring restoration to creation. That begins with sentient beings and then, after the earth has been restored, there is so much more.

Vision Destiny 2022

- There are guardians for each system that will help you when you learn to engage them.
- We are going to engage the constellations and the dimensional portals that connect beyond the physical realm.

Vision Destiny 2022

- I remembered previous experiences that I had with the guardians and the specific encounters with a dimensional hub in the Pleiades region.
- I remembered that I overshadowed them, seeing some restored and hindering the negative activity.

Vision Destiny 2022

- I also recalled the restoration government encounter with the constellation of Cancer, accessed through the fiery portal.
- Yes, that is right, you have prepared for this journey so now We wish to show you the extent of Our desire for restoration.

Vision Destiny 2022

- We travelled at light speed through the constellations in an order that may be significant but I was too excited to notice.
- We met the guardians of the constellation and each region, who were large regal beings with an official air about them.

Vision Destiny 2022

- There was a plan for the portals that were at the core of each region and the guardians were key to engaging those hubs that connected to the many other dimensions.

Vision Destiny 2022

- In some of the constellations there were also angels who still governed but others where I sensed (but did not see) a fallen being.
- There are so many regions of space within each constellation but there seemed to be only one dimensional portal hub.

Vision Destiny 2022

- As we paused to observe the activity around some hubs there were so many different types of beings I wanted to engage but the Spirit said that this was only a reconnaissance mission.
- I did feel the frequency and energy of each hub and the draw of the portals that formed the Merkabah-like centres.

Vision Destiny 2022

- The enormity of the task hit me as I contemplated that each portal has multiple Merkabahs within it but the cry for help that I had previously encountered from the Cancer hub that I was able to engage brought me inspiration that this was actually possible.

Vision Destiny 2022

- Once we had visited all the constellations and their regions I had a galactic map of the portals in my mind.
- We then went to a large council chamber where the representatives of the guardians were meeting and excitedly and noisily communicating with each other.

Vision Destiny 2022

- The Holy Spirit took centre stage and all came to attention. There was a hushed silence as I was introduced as one of the ambassadors of the sons of God.
- The Father has a strategy for restoration that encompasses the sons of God and many will begin to come here for counsel.

Vision Destiny 2022

- The light of the hope of sonship is reaching the dimensions and desire is rising for freedom within but the nexus hubs must be restored first as some are coordinating the external interference that the earth is now being shielded from.

Vision Destiny 2022

- I put all my experiences together and I saw the strategy that the Father is beginning to put in place, starting with the earth shield but expanding beyond to incorporate the constellations.

Vision Destiny 2022

- I felt the importance and significance of the shift and transition of the ages that we are currently in and the opportunity it is giving.
- The instability of times of transition affords opportunity for great restorational changes to take place but there has to be government in place.

Vision Destiny 2022

- Son, you are mandated along with others to mobilise and organise those who are beginning to sense the call of the frequencies from beyond into a functioning government.

Vision Destiny 2022

- Everything must be according to its order and the earth is the first fruits but preparations must begin now for the restoration of all things.

Vision Destiny 2022

- 18th March 2021
- Restoration government ascension.
- We engaged a rainbow realm where the fullness of the promises of God are accessible and all the colours of the 7 spirits can be accessed simultaneously.

Vision Destiny 2022

- I saw a mycelial-like organic network of silver threads that connected everything; it was like a communication and transport system of quantum entanglements.

Vision Destiny 2022

- I engaged a thread and was immediately transported to a constellation, to a nexus point where several threads intersected.
- There were guardians there who were protecting the dimensional portal that was at that point of connection between realms.

Vision Destiny 2022

- They gave us an invitation to engage with the council of guardians that the representatives of each nexus point attended.
- After some discussion we felt that we need to honour the invitation by engaging.

Vision Destiny 2022

- We engaged a thread from within the rainbow realm and were immediately before the council, where we presented a scroll that the Father gave us.

Vision Destiny 2022

- We honoured the guardians for the role that they have been fulfilling to keep us safe and there was a mutual honouring.
- It was a solemn and moving moment of reconnection that had an ancient history.

Vision Destiny 2022

- They gave us seats at the council and I saw that we were in a large sphere. On the dome were dimensional maps of the superhighways connecting dimensions.

Vision Destiny 2022

- The angelic beings, Limitless, Breakthrough and Revelation, came and began spinning light around us like a vortex that took us up through a pillar of light.

Vision Destiny 2022

- We began to be elevated into different levels and our form began to be transformed to enable us to engage with and relate to different dimensional realities.

Vision Destiny 2022

- There were pathways of light set before us that we could follow but the light was also transformational to prepare and equip us to be able to access and relate to the different dimensional realities.

Vision Destiny 2022

- We began to be transformed into different energy forms: a protonic form then a nano form and a photonic form that connected us to the network for dimensional access.

Vision Destiny 2022

- I saw the mycelium connecting different realities for communication and transport. There were threads to different special dimensions.

Vision Destiny 2022

- There were threads connecting the physical macro realm, micro realm and nano realm but others like subspace, hyperspace, quantum space and others that I have no grid for yet.

Vision Destiny 2022

- The Father's presence was strong there and He said,
- Son, you have all been invited to join the council as they are forming a strategy to safely engage the dimensions so that they can be transformed and restored.

Vision Destiny 2022

- All of creation is beginning to reconnect but you need to be careful and not just go anywhere randomly as there is an order and structure to the process of restoration.

Vision Destiny 2022

- The council will release mandates to give access as some dimensional realities will require a level of union and maturity that is greater than others.
- Some can be engaged individually but most require a greater level of union for safe access.

Vision Destiny 2022

- Son, all that you have seen and experienced is just a fraction of creation but you will be able to connect and engage with it all.
- Mankind was made to connect with all creational realities and rule as coheirs and co-creators within Kingdom government.

Vision Destiny 2022

- What you are being shown is part of a process of preparation to transform you to be able to access and engage all that has been created for Our sons to bring balance and harmony.
- All is not yet completed; we have left much for you to do.

Vision Destiny 2022

- Mankind was not created but formed from all the particles of existence to connect you and give you a deep desire for creational union and harmony.
- That desire has been twisted by independence but can be restored.

Vision Destiny 2022

- Mankind was created in Our image in union and relationship to be a multidimensional being, able to transcend the barriers between the many forms of space-time.
- No other being has the capacity to be able to be transformational and multidimensional as mankind alone are coheirs and co-creators.

Vision Destiny 2022

- The restoration of identity, position and authority is just the beginning of the journey that outworks this process of ascension to maturity.
- There is so much more to come but you cannot bear all that yet.

Vision Destiny 2022

- Mankind will ascend into glorious transcendence with eternal attributes and capabilities, so keep following the pathway of light set out before you.

ROAT 3 Ascending Higher

- Let's engage the light face to face, heart to heart and experience all we can bear at this moment.

ROAT 3 Ascending Higher

- Let's just engage with the light realm.
- Maybe you can, I'm not guaranteeing it, but I believe God wants to help us engage with the light of His face, heart to heart, and experience what we can bear.
- At this moment we might all be able to bear very different levels of revelation and experience but we can all bear something.

ROAT 3 Ascending Higher

- So I encourage you just to close your eyes.
- Set the desire of your heart to engage face to face in the realm of light in perfection with the Father, with the Son, with the Spirit, within the perichoresis of their relationship, and just engage your heart and your mind and your being with that
- And step into that place of light.

ROAT 3 Ascending Higher

- And open up your heart, and open up your mind, and allow the Father to show you, as a son, what you are able to bear and experience and receive right now, heart to heart, mind to mind, face to face with the light of love and truth.

ROAT 3 Ascending Higher

- And just dwell for a moment in that place where the light of love and truth is shining brightly, unveiling who you are and revealing that which you can bear and have revealed to expand your consciousness and increase your capacity as a son, at this moment.

- So just open up your heart and mind.
- Don't try to figure it out, don't try to understand it, just enjoy the experience of being in the light. Whether you can see it or not is immaterial, engage it.
- Just let the frequency of the light and the sounds of love, of grace, of mercy, of truth, just enlighten you, and cause the enlightenment of your mind and the expansion of your consciousness.
