

## VISION DESTINY 2020 14

I am going to review some of the things that were key in 2019

I will share my journals; that will include:

What God said in 2019

What God did in 2019

What does that mean for 2020?

Some of the major themes during 2019

- The restoration of all things
- The oracles of the Father's heart
- Love's light
- Happy eschatology
- Joshua generation arising in sonship
- Rest

Son, you were designed in Our image and likeness: to ascend, to think like Us, with the power to create reality. The independent, disconnected DIY pathway has diminished but not removed those abilities; and all that now is, is the result of the acceptance of the fruit of free will.

Free will is inherently independent of the relationship of I am that was designed to be at the heart of everything and is primarily what is responsible for the fallen state of creation.

Free will as you now perceive it to be was never Our original intention.

What was intended was a relational, creative collaboration with all of creation through the Elementals of every dimension; but the ascension of mankind to the maturity of sonship has been side-tracked.

Son, the restoration of sonship is the key to the restoration of the all things of creation.

This is the truth that is being resisted by the political and religious spirit at work within My children; this is keeping them in immaturity.

I went into the garden of the Father onto the golden mountain and I was given 4 golden keys by Metatron. Each key was for unlocking one of the 4 streams flowing towards restoration.

Son, use the key as your mandate to open each of the streams to each of the other streams; so that the 4 streams can become one, unified river that will flow from heaven to water all of the earth.

This river can then begin to flow from the earth to water the whole of creation.

The flow of this river will increase when My sons are in unison, one heart and one mind, with one purpose: which is the restoration of all things.

Son, the key symbolises your authorisation to bridge the streams by unifying the revelation of each stream into a logical, unified understanding that encompasses each field.

You will need to legislate for the removal of doctrinal strongholds and the deconstruction of theological pillars that limit and restrict their ability to embrace the other streams.

Son, focus your attention and target specific significant people within each stream, those who I will show you.

Son, it is only love that can break down the walls of division and separation that keep the streams apart.

All the streams originally had one source, which was the river of life; so all of the streams flowed as one river from My throne

## VISION DESTINY 2020 14

Following the tree of the knowledge of good and evil has created independence.

Each stream, although containing truth, still operates in a DIY system that blinkers people from each other because they have all been leaning to their own limited understanding.

Son, it is time for these independent streams to flow from My throne once again, so there can be an exponential increase as the streams flow together.

Son, the mystic stream must be the one to take the lead, as only face to face intimacy can reveal the truth to all streams.

Son, you have embraced the revelation of all streams but you need deeper levels of truth to be a connection point that unifies.

Son, come to the Court of the Fathers and present your case for restoration.

I stood before the 24 elders representing the Father's heart and presented the case for the restoration of ALL THINGS.

On the basis of the precepts of God, who is love, and on the basis of the sonship mandate to free creation from its bondage to corruption, I ask for a mandate to be given to the Joshua Generation for the restoration of all created beings and all created things

I call for the end of controversy by releasing a clear mandate to take responsibility for all created beings.  
I call for love and forgiveness to be released to all created beings that will break through the deception that they are in bondage to.

I call for the alignment of the circle of the deep in relation to the restoration of all created beings.  
I call for an unveiling of the truth that all created beings can be restored as a precept to reveal the statutes and laws to open the window for the ordinances of God to be put into motion.

I call for new mantles of restoration to be released, that carry the Father's heart and oracles.  
I call for new weapons for restoration to be released to engage all created beings.  
I call for the evangelical mindsets that limit the scope of restoration to 'only mankind' to be deconstructed.

I call for scrolls with mandates and blueprints for the restoration of all created beings to be released.  
I call for limited and restricted thinking to be challenged by testimonies from all of the nations concerning the restoration of all created beings.

I call for the culture to be changed in the affairs of the nations to make it acceptable to see all created beings restored.

I call for angelic messengers to take the call for the restoration of all things into the visions and dreams of all those who are standing in opposition.

I call for the Fathers to release the oracles of the Father's heart to all who are restricted by religious beliefs that limit restoration.

I ask the Council to consider my case and give me a scroll with authorisation to expand the message of restoration.

I received the mandate and started to legislate for restoration in convergence of the 4 streams into one river  
I call into the 4 streams and call for them to converge into one unified whole river  
I call for the theologians of each stream to have supernatural encounters with the Father.

I call for those who are passionate about their stream to have love encounters with the Father

## VISION DESTINY 2020 14

I call for lightning bolts of heavenly revelation to penetrate the veils of deception that restrict them seeing the other streams.

I call for the blinkers to be removed from their eyes so that can see beyond their own stream.

I decree the convergence of the streams towards full restoration.

I decree open hearts and open minds by engagements with the living word of God, Jesus.

I decree the days of reliance on the Bible to be over and the days of hearing Jesus' voice to begin

I call for the light to shine to reveal the oracles of the Father's heart to all the streams

I call for the passion felt towards each individual stream to be felt for the one river of full restoration.

I call for grace and greater grace to manifest over those who are the evangelists of each stream, to empower them with the boldness to embrace the unified river

I call for the courage of grace to equip them to embrace the deconstruction and renewal of their minds; to enable them to let go of the religious beliefs that keep them insulated from each of the other 3 streams.

I decree that one stream will become two and two will become three and the three will become four and all will become one mighty river of the convergence of the eternal heart of God for full and complete restoration.

Son, use this legislation to target and reach those in each stream that I will give you My heart for.

Be consistent and diligent until My love overwhelms each argument and removes every obstacle to convergence.

Son, the great convergence is gaining momentum so keep legislating until it reaches critical mass.

My love will be too powerful to resist and My grace to lavish to ignore; and I will not relent until I have them all restored.

I have called you and mandated you to be the ambassador of restoration.

This mandate authorises you to go beyond the jurisdiction of the Joshua generation to engage all of My children and all that I have created with the oracles of My heart across all dimensions of space time.

Son, release the sound and light that carries the frequency of My heart for restoration through My oracles to all dimensions of the created order.

Son, the frequency of sonship will be resonating with My passionate love for the freedom of all creation from its corruption and the deception of its lost identity.

I stood on the foundation stone of all creation and released the frequency that carried the oracles of the Father's heart out into all dimensions

Son, stand within My heart in the eternal now.

Can you feel what I feel for all that I have created?

You have had revelation of the oracles of Our heart and you have experienced how others have felt having experienced Our love.

Now I desire that you know for yourself how We feel as parents of creation itself.

It is like being in a furnace of intense heat: the emotions are overwhelming, like waves of passion, burning desire, intense joy, deep compassion and overwhelming love.

Wave after wave of deep emotions without any break, rolling over me, imparting the reality of love.

There was an intensity of emotion that I have never felt before, that held in perfect balance the transcendence and the imminence.

I knew that there was total, complete peace, and therefore the perfect rest of the eternal now, knowing the end from the beginning; and yet contrasted with the intense pain and deep sadness of living in the moment with all of creation.

Going through the intense agony of feeling everyone's and everything's thoughts and feelings, moment by moment; as all things exist within God as Father, Son and Spirit, and God is present within the fabric of all things.

Now I know why the restoration of all things is at the centre of a loving God's desire, intention and motivation. Now I know how the oracles of God's heart are inextricably entangled and can never be separated from the restoration of all things.

He is love and love is restoration in action.

Son, now do you know I am that I am, and why I will not relent until all of creation is fully and completely restored to the state of pure innocence found only within the *Perichoresis* circle of the dance?

Son, deep is calling you to come deeper. Come back to the fire stones for the encounter you need for the next season of grace and greater grace.

There at the fire stones I was surrounded by Father, Son and Spirit and we walked onto the first stone.

Love for creation, the agony and the ecstasy that cannot be separated, the transcendence and the immanence.

I ascended each of the steps in turn, feeling the depth of the emotions felt by God for restoration.

I felt all that it was possible for me to feel of what God feels based on Their character and very essence. Joy, and yet deep sadness; peace, and yet turmoil; patience, and yet anxiety; kindness and goodness Fully identifying with creation's groaning in lost identity

The contrast with the imminent longing and groaning pain of creation held in the bondage of corruption.

The agony and the ecstasy, the quantum paradox of transcendence and immanence within I am that I am as love.

Son, release the sound of new beginnings to bring fresh hope to those who are weary of the dead works of religion.

Son, so many of Our children have been deceived by the religious spirit and do not know who We are.

I am that I am is going to reveal the truth of who We are in outrageous displays of grace.

Those who have rejected hyper-grace because their minds are trapped in the 'less than' evangelical system will be outraged by ultra-grace.

Son, Our grace, as the divine enabling power to be in relationship with us, can have no limits because love has no limits, as it is purely unconditional.

Religion limits grace to works because it is a system of the DIY tree, imagined by man independently of God to enable appeasement by man's own self-righteousness efforts.

There is no grace in religion as grace is free and religion requires adherence to law and rules.

Son, the frequency of freedom must resonate within the hearts and minds of Our children for grace to be activated for new life to emerge from the darkness into the light.

The forerunners of the Joshua generation must arise and shine love's light with the utmost urgency to radiate grace's new hope into the darkness and deception of the old order institutional systems devised by man.

The light will continue to increase in intensity as creative light reveals the dimness of the created light that has covered the world in relative darkness.

Son, I was the light of the world and men chose to reject the light and remain in darkness  
When My children arise to be seated in the heavenlies, the world will see the brightness of their rising.

Arise and shine love's light with extreme, lavish, ultra-grace, to reveal the truth of Our unconditional love to those trapped in the deception of self delusion.

Son, there can be no limits or restrictions to love, grace or mercy; so it can triumph over man's need for judgment and so-called justice.

Man's so-called justice, that has been attributed to Us, is but a symptom of the need for retribution to justify their need for laws and rules.

Son, true justice is based on unconditional love and the judgment of innocence made before the foundation of the world.

Son, all of creation has been predestined to be restored from the beginning.

It was, is and will always be guaranteed by love's offering of itself on the foundation stone of creation itself.

All the darkness of religion will be exposed to the light of Our sons arising and shining love's light.

Son, prepare for the shift by resting in My love and seeking Me for strategic direction to legislate for the opening of new doors of opportunity.

There are nations and people groups that are under more heavy religious deception than others, and they need the light to penetrate the darkness.

There are also nations and groups that think they are thriving under the Moses order system

They think that they are in revival because of many conversions and large numbers attending their meetings.

Revival is the restoration of love's quality not quantity

Do not make judgments by external observation, but by love

The life in the old is satisfying the religious needs but it is not creating sons, only slaves dependent on the hierarchy.

Son, legislate for personal dissatisfaction to create the desire for freedom, by calling for encounters with the angelic and for heavenly encounters.

There must be a desire to be free from the matrix of religious delusion

That desire will cause My children to mature and take responsibility for their lives and their spheres of authority.

Whilst justice moves to a season of grace for the Joshua Generation.

Grace will be removed from the Moses order and the revival dynamics will shift to control systems that further restrict sonship.

The corruption that is often associated with success will begin to be exposed as it has been in many scandals of the past

This will reveal failures of trading on the negative floors of money, sex or power.

Hierarchical systems often lack the accountability of relationship because of the charisma of the leader, and deception is not far from the door.

Son, it is not My desire to hurt My children; but the mediatorial systems need to be exposed so that My children can walk out of the slavery of the wilderness into the freedom of the promised land.

The apparent success in the wilderness will be replaced by disillusionment as the flaws of the system are exposed to the light.

My children will begin to see things as they truly are.

They will start to seek me alone

The true mantle of authority has already been passed to Joshua figuratively; but just like Samson, many have not detected that the anointing has departed from those who function like Moses did, in mediation.

Son, legislate for the shakings to increase in frequency and amplitude until the reality of wilderness living is revealed.

Son, the wilderness cannot be restored as it can never become the promised land: it is the product of the fear and slavery of the DIY tree path.

The full restoration of all My children from slavery to sonship is My desire and intention; and it will continue to be while one child remains in bondage to the religious deceptive systems masquerading as places of truth.

Son, come walk with Me.

We entered the temple and I looked up at the domed vaulted ceiling, covered in multidimensional maps depicting the changing of the affairs of the nations, cultural shifts and dimensional transformation

I was drawn to one particular area that seemed to represent a map or blueprint tracking the course of restoration across the different dimensions of time and space

I saw the 4 streams flowing to converge in the physical realm but I also saw a river of pure light flowing dimensionally through the spiritual and the dimensional realms

I saw the restoration of sonship as a river of light that crosses the boundaries with the radiance of true hope's light for creation's freedom from its bondage to corruption into the glory of the liberty of the sons of the living, loving God.

I picked up a golden bow and fired four arrows with golden cords into the four streams, connecting them; and a fifth arrow into the spiritual realm; and a sixth arrow into the dimensions; and a seventh arrow that reconnected all things to the eternal now, the source of the Father's heart of love.

Son, I am that I am. Trust Me, and you will begin to see beyond what you could have imagined or thought.

I am beyond your beyond and infinite; but there is one thing that has never changed: that is the fact that I am love.

I can never be or do anything that is contradictory to love, as love is the constant of who I am.

Son, you can trust in My love being constant and consistent; and reject anything, be it theology, doctrine or teaching, that contradicts My nature and essence as love.

Unconditional Love defines who I am and everything must be framed by love.

Love is the only way to judge and evaluate; it is the only plumb line you will ever need.

Religion will always put conditions on love that lessen the truth of who I am to distort My nature.

Son, you have experienced My love in so many ways and it is those encounters that have deepened your realisation of who I am truly is.

## VISION DESTINY 2020 14

Your love encounters have enabled you to come deeper into the true reality of Our nature  
The restoration of all things journey that you have been on has been an adventure of love  
Son, there is more to come but I would encourage you to reflect

Son, look back to see how far your journey has brought you; and you will also see how much there is to come  
Remember being baptised in love in 1986, and how life transforming that was.

Remember when your emotions were released and I revealed another level of love as a father to you.  
Remember when you were overwhelmed by love for those who were in bondage.

Remember the firestones in 2008 when you became joined to love and how that changed the desires of your heart.

Remember when you went back to the firestones and experienced love from an eternal now perspective for the first time

Remember when I took you to the judgment seat and you felt My love expressed as My pleasure over your scroll both gold, silver and precious stones as well as wood, hay and straw. How liberating that was!

Remember when I came to you as Father and expressed My love for you by removing the scar tissue of your father wounds.

Remember when I took you to meet your father in the Court of the Upright and showed you that he loved you.

Remember when I showed you a glimpse of My love for all of My children and how I am working continually to bring good out of all their choices and decisions

Remember the waterfall when you felt My love for all, regardless of the externals of race, colour etc.

Remember the waterfall when you felt My love for the victims and abused, the broken and fragmented;  
Remember the waterfall when you felt My love was equally for My children who are the abusers, traffickers, victimisers etc.

Remember when I took you into the place of My consuming fire and you felt My unconditional love for those going through the fires of purification

Remember the love you felt for your family lines when you preached the good news

Remember when I showed you the Oracles of My heart and you felt My passion, burning desire, intense joy, deep compassion and overwhelming love

Remember when you engaged the cloud of witnesses and felt how those people felt who had been shown the love of the Father by Jesus

Remember when you felt My unconditional love for the dimensional beings that I sent you to help.

Remember when you felt My unconditional love for all of the fallen ones, and what it was like when there was restoration.

Son, nothing can be separated from Me and therefore from My love, as I am in all and all exist in me  
Son, love is who I am and I am unrelenting. Love is stronger than death, so I will never fail and I will never give up until everyone and everything is restored in My love

I am that I am and I am is love

I am love and love is I am

Love is who I am and love is the motive of every desire, thought and action

I am that I am and I change not. I have always been and always will be love as love is an eternal constant.

Live loved  
Love living  
Live loving  
Rest
