

VISION DESTINY 2020 8

I am going to review some of the things that were key in 2019

I will share my journals that will include:

What God said in 2019

What God did in 2019

What does that mean for 2020?

What heavenly season are we in now?

What has God said for 2020?

What does God want us to do in 2020?

Where does God want us to go in 2020?

Some of the major themes during 2019

- The restoration of all things
- The oracles of the Father's heart
- Love's light
- Happy eschatology
- Joshua generation: sonship
- Rest

Son, there is more to come than you have seen so far but this is the beginning of the beginning; get ready to launch out beyond once again.

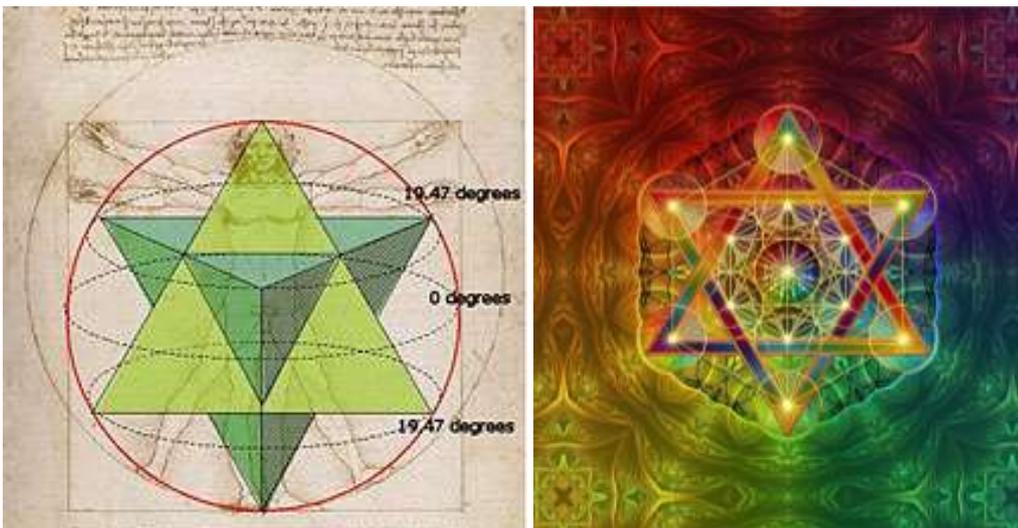

Focus on developing your mind; learn to meditate with greater clarity and purpose, and you will be able to create a better reality.

Focus on framing your reality each day as a fractal image that reflects the whole narrative by seeing the bigger picture

See the love, joy and peace that forms; rest, within the frame within the frame within the frame.

The frame is the Merkabah, the wheels within the wheels within the wheels; where you view, experience and live within love's light.

The energy you need to arise and shine love's light will be found as you live from the fractal of the wheel that empowers your life and enables you to frame reality.

Mount Zion and the mountain of the house of the Lord form the frames to view reality from; but they must overlap and create a new frame for multidimensional portals of reality.

The fractals of the wheels go deeper than you can presently imagine or think; but your consciousness will expand if you will continue to develop your meditation.

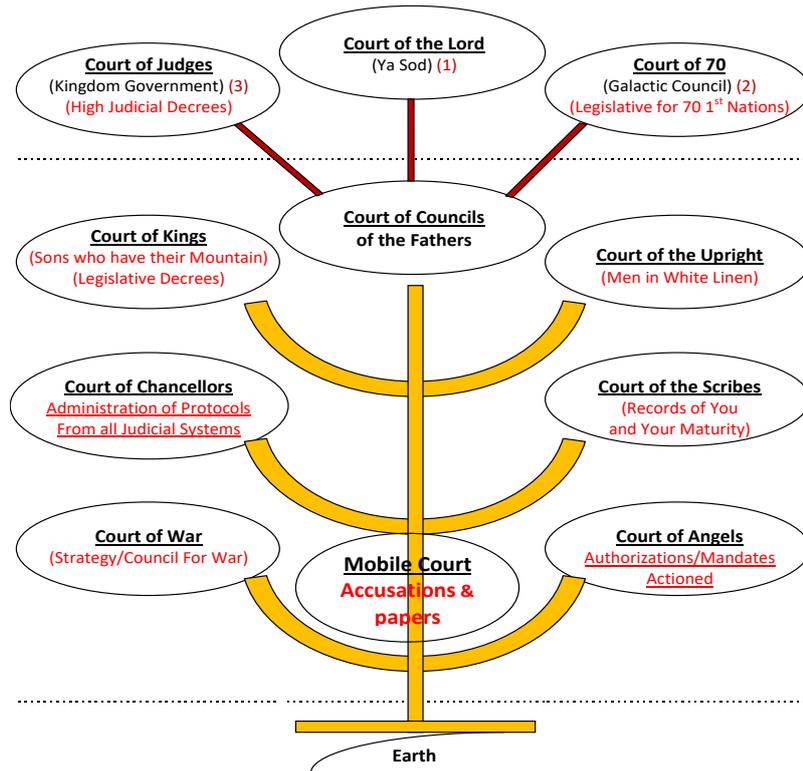

Son, come walk with Me.

We entered the Sod of the Lord.

Son, this is the place of convergence where the *now* becomes the *is* to enable what *will be*.

Son, here are where the books are written and the scrolls established.

Heaven's Court System

Son, this is where the conversation within the Perichoresis, the precepts of My heart, are released as My statutes

My thoughts are unveiled so that My voice can be expressed as the laws that enable and empower My children to act.

I saw continual illuminations of truth, released as a continual flow of heart to heart, mind to mind
 Revealed truth of living letters creating, revising, to reflect the wheels within wheels within wheels of the High Chancellor's houses, where destiny is being aligned; as the now, is, and will be, converge.

Son, see the living letters energise and activate My heart and My thoughts into the frequencies that are resonating to entrain the hearts and minds of all My children to their destinies.

This is where the resonant frequency of I AM creates the unified quantum field that energises the whole of the created order with what you know as zero point energy

This the power of My voice as the vibrating strings that causes all things to exist.

Son, this is where My observation and My reality frames creation with the hope of the freedom of the glory of My sons.

VISION DESTINY 2020 8

Son, this is the fabric of space time; the unified field of My consciousness that causes everything to live and move and exist within Me.

Son, the Sod is My heart, mind and voice; communicated as the unified field of energy, the vibrational frequency that is entraining creation towards the restoration of all things.
This is not a static system of inevitability but a dynamic relationship and continuum.

This is the purpose of the living letters: as the intermediaries of My heart and mind; as My words, that are living, active and all-powerful in the creating of reality.

This is where separation and reintegration of soul and spirit and thoughts and intentions continually create the source within each of My children.
Son, this is the place of comfort and security where you can be real and honest, and open your heart to Me.

Rest in My love and trust Me for your provision, protection and direction, and we will walk out your destiny together.
The Joshua Generation is the main mandate that I have given you to facilitate the restoration of all things and set creation free from its groaning bondage.

Son, it is only those who will arise and shine to radiate the glory of sonship that will become mature sons in this age.
There are many who will shrink back to the comfort of the old systems; but you are to equip and train those with the courage to take possession of the land of their inheritance.

Son, release a new wave that will touch My children's hearts and draw them to a fresh hope that there is more than this.
Let the sound and light create the frequency that will woo My children out of the wilderness of religion into the glorious freedom of sonship.

Son, there are many waiting for the sound of heaven to reverberate into the wilderness of the Moses generation, religious, mediatorial orders.
Be bold and be courageous; do not hold back, and new horizons will be open for the Engaging God programme to engage.

India is but the beginning. Keep walking with Me and you will be able to reach the nations so that they can return to being the families I intended them to be.
I issued the mystic call into the nations as the sound of sonship.

I call into the religious systems of India with the mystic call to sonship
I release the blue light call to engage sons to cross over and be seated beyond the veil

I release the sound and frequency of the oracles of the Father's heart to awaken the children of God
I release the messenger angels with dreams and visions to awaken those sleeping in religious stupor

I call for the royal priesthood to arise and be positioned as oracles and legislators of the order of Melchizedek
I call for the light of love to shine brightly

I call for love bombs from heaven to explode over the hearts of men and women in the world to awaken to the desires that have been suppressed by the coverings of men

VISION DESTINY 2020 8

I call for the lightning bolts of heavenly revelation to penetrate the veils of deception; to awaken and illuminate the darkness with love's light
I am about to show My children more of My presence. I am coming to invite them to cross over and come up here.

In 2012 I began the reformation that offered the possibility of heaven being open.
In 2015 a new generation began; and now in 2020 there will be the beginning of the exodus from the wilderness, as the visitations become widespread.

Many will be afraid of what they see; but they will come, and the exodus will not be visible yet.
Many will see and the experience will be visibly life-changing: they will have no fear and will be the forerunners of this next phase.

Son, call them into the Joshua Generation and welcome them home. Make them feel welcome and accepted; and unveil their freedom in sonship.

The ambassadors may not seem to be effective; but the ripples are beginning to grow into waves of sounds and light that are increasing in amplitude and are beginning to penetrate the veils of deception of the old order.

To freely be loved and to freely express love is the hallmark of sonship; and this will change your frequency, to answer creation's groaning for freedom.

Son, face to face intimacy will inevitably lead to deconstruction and renewal of the mind regarding My nature and character.

When anyone truly looks into My eyes, unconditional love is the only thing they will see.

They will see themselves and the world through the mirror and lens of love and the oracles of My heart will begin to unveil and reveal just how unrelenting and unfailing is My love.

Son, My love for all My children creates the mirror to reflect identity and reveal position and purpose. If only they could see Me without the veils of deception that are distorting My character and very nature!

Son, I am calling you to open your heart to more people and respond to the desire for more that is increasing amongst those who know there must be more than this.

Respond to the cries of the hungry hearts to open new spheres for the Joshua Generation to arise and come forth into their inheritance.

Son, strategically target geographical areas with legions of heavenly messengers who will explode love bombs and hurl lightning bolts to open the hearts and minds of those who will become the evangelists of the new.

Son, target the 4 streams converging towards a unified position in the restoration of all things with the truth of love that will penetrate the veils of deception.

I call for love bombs to explode over the lives of those who are forerunners in each of the 4 converging streams

I call for love to explode over...

There were many specific people whose names I am not going to publicly share but they are from the 4 streams converging

VISION DESTINY 2020 8

Son, when the foundations are reset and true openness, honesty, and transparency are in place and deception removed then you can engage to restore destiny robber.

Restore the light out of darkness so that the scales of deception and darkness can be removed and the pre-fall position and function can be re-established.

Son, offer only My love as light to bring restoration to those who were deceived by the light-bearer.
Son, administrate the light of love into all areas of darkness to restore the relationships lost through deception.

The whole way that the good news is presented has been twisted and perverted by Leviathan to become bad news that undermines the reality of My character and nature.

Set the record straight in the 4 converging streams by highlighting both the truth that brings position and the errors they fall into.

Present the strengths and weaknesses and show how they need each other to be a unified, whole and coherent position.

Each one without the other three fails and collapses; they need to be a 4 legged stool not 1, 2 or 3 as they are not stable.

Legislate for the light of love to shine within each position of convergence to unveil the instability of one without the other three.

The mystics need a consistent eschatology and a universal love reality or they will fail to capture the hearts and minds.

The eschatologists need the universal perspective to do justice to the implications of the new covenant but will fail without mystical love encounters.

The universalists need an eschatology that supports their position and they need the positions of heavenly government to legislate for the restoration of all things.

The energy healers need a personal relationship and transcendent and eternal purpose for what they are doing

All 4 streams need to flow together in 1 converging river that will flow into the nations

Son, I will give you revelation through encounters but you will also need to understand all four positions to be able to unify the whole.

Each stream will need to let go of their theology and doctrinal positions for the sacred cows to be slain.

Encounters with Me are the only hope they have, to embrace the reality they need to converge; and become the unstoppable force for restoration that they are intended to be.

The Engaging God Programme is your priority, to equip the Joshua Generation. Only the first wave have been reached: there are many other waves to cross over.

Keep up the momentum and finish the next modules before I open up other avenues to explore.

Son, legislate for peace and harmony and be willing to pursue unity in relationship with diligence and persistence.

I do not want this movement to go the way all others have gone by fossilising.

These are movements because they accelerate things forward; and when they stop, they cease to carry My heart.

VISION DESTINY 2020 8

Don't stop moving forward towards the restoration of all things.
Keep making progress even when it feels tough and there is resistance from those who should be providing momentum.

Keep building momentum until it becomes a critical mass that can be resisted but not stopped.
This is logarithmic in function so will not require equal numbers, just significant numbers of strategically placed sons.

Son, each year give a fresh opportunity for mentoring and remove those who are not engaging so you have tiers of groups.
Move all those who want to continue to be mentored into advanced groups and start new beginners' groups.

Son, it is My desire that My children be fully equipped and lacking in nothing: that requires maturity; and that requires the testing or trying of your trust in Me.
You embraced the process. Many resist, because they don't know Me and attribute this process as an enemy attack.

Son, maturity is necessary to trust Me for the deconstruction of the mind; but most don't have it.
They allow their own fear to rob them of the truth and so their eyes are veiled and they are blinded and blinkered in some areas whilst being very enlightened in other areas.

Only face to face encounters can remove that fear; but that type of relationship is beyond the beliefs that many of My children have.
Son, target and engage those I direct you to and seek in love to open their eyes to possibilities beyond their limitations.

I have connected you to them for this purpose, so start to engage personally for dialogue and begin relationship. Stop being anonymous.
Son, don't compromise or be influenced by old covenant thinking and religious veils.

Son, justice comes from judgment; where, through My grace, mercy triumphs.
Son, seek mercy – which is justice outworked – and trust Me to bring good out of chaos by resting in My comfort.

Yes, son seeking first the kingdom is a new covenant principle
I was presenting the truth by redefining the old covenant mentality when I spoke the truth of “I say unto you” words that came from the mouth of God to live by.

Son, My words are living and active and powerful to perform that which is a reflection of the Father's oracles as seen in Me, the living word of truth, who is truth personified.

Those who tried to love by the old covenant law-based system of works ended up outside in outer darkness with no new covenant light to walk in.
They were pruned from the vine and ended up in the fire both literally and figuratively but they could be grafted back in through grace.

The futility of works through law was intended to point towards new covenant grace and mercy, not make them try to work the DIY system harder through works-based religion.

New covenant grace must be contrasted with old covenant works so My children can be free to trust Me.

VISION DESTINY 2020 8

Limited access to the most holy places separated by veils or open access through the torn veil

Access to heavenly realms through death compared to access through the way truth and life
Mediatorial, hierarchical governmental leadership structures compared to heavenly foundational servant leadership.

Moses generation mediators who function on behalf of the people compared with Joshua Generation examples functioning with the people.

Old covenant restrictions and limitations compared with new covenant freedom and empowerment

Limited responsibility of stewardship compared with full responsibility of sonship
Earthly positions of authority compared with heavenly positions of identity

Identity through works compared with identity through relationship
Obligation and duty through fear compared with opportunity and desire through love
Obligation of law compared to the response of love experienced.

Son, be wise and maximise your resources and I will supply all your needs from My unending heavenly supply.

I am that I am is infinite in wisdom knowledge and understanding: all you need to focus on is I am.
Whatever the problem, I am is the solution; whatever the need, I am is the provision.

Remember I am that I am, and live from the rest within I am so you can be, then you live from rest not for rest.

Son, whatever it is, I am, because I am omnipotent, wherever it is, I am omnipresent, however it is, I am omniscient.

I am all-knowing, all-seeing and all-powerful; nothing is impossible for Me, and I am love in essence, nature and character.

Love sees, love knows, and love is overcoming.

Love has won: therefore love wins and love will win, because love is I am that I am.

Son, let Me show you a new vista which has a new horizon and a fresh perspective to view from.

I will need to renew your mind again, challenging more of your worldviews.

Your thinking, although expanded, is still far too small; you still only see a limited range of light and you hear a restricted frequency range.

I desire to expand the bandwidth of your perception so that you can know the things that are beyond your current ability to comprehend.

Son, thinking nonlinearly is only the beginning; you were designed with our creative potential for multidimensional and transdimensional existence.

The ability to be I am as you have always been, as We have always been, because you are spirit as We are spirit.

I created spiritual beings; but mankind is not that, as you were not created; but you are spirit as we are spirit.

Son, you are My child in many more ways than you have been able to think, as your consciousness has been limited in its capacity to be.

Man is, and has always been, spirit; and was not made or created, but is and always has been, as We have.

VISION DESTINY 2020 8

Only through a created universe could we experience that which is beyond spirit and We have experienced through our children beyond the transcendent in the immanent of existence.

Son, allow the blinkers to fall away like scales from your eyes so you can see from being, not seeing.

Know through the expanded consciousness of being, not just seeing

As you have been known I am that I am you are that you are.

I desire to free your mind beyond beyond its present ability; to go beyond the doing, to become; and as ascended fathers, to complete the fire stones.

The last encounter with the firestones opened your mind to be deconstructed from old covenant thinking and all the implications of that.

As your mind was renewed, you could begin to see some of the streams beginning to converge, but there is a far greater convergence taking place transdimensionally.

There have been attempts to counterfeit the true convergence but they have ultimately failed, as they have been limited to what is possible because of the created mind.

The spirit of I am-ness is capable of facilitating this convergence through the oneness of being.

Son, you have experienced the intention and felt the wonder of being, and that needs to be the focus: that becomes your motivation for the restoration of the harmony you have been.

You have been I am and you have been reconciled to I am and have been living in the circle of the loving dance, but you know intention and you have felt the harmony of being.

Draw from your being and your being will be pure spirit, pure light, pure love and pure fire, which is the pure desire, pure thought, of I am that I am.

The convergence of I am; that has been, that is, and will be.

Son, you live move and have your being within I am; but that is just the limited philosophy of men's best effort to understand your being and must be expanded.

You must go back to the firestones again for the process to be accelerated beyond the limitations of a finite mind.

Son, you can choose. You have the invitation: think carefully about the implications, as this will have greater consequences and can cause greater controversy
