

I am going to review some of the things that were key in 2020

I will share my journals; that will include:

What God said in so far 2020

What God did in so far 2020

What does that mean for 2021?

18 June 2020

Son, today We desire to draw you deeper into Our desire so you can dwell permanently within the creative place of Our heart.

The Cradle of Life is the birthing place of Our thoughts.

Come through the garden of Eden, through the golden gates, into the garden of Our heart.

We will enable you to see in the light that is just the Cradle of Life, the creative birth place of all things.

I could see but I could not really see. It was still too much for my mind: my consciousness still needs to be expanded beyond my current capacity.

The light enveloped me and it felt like I was being wrapped in the beautiful light and love of creative thought.

In this chrysalis of transformation my consciousness was changing so it felt like I was aware of mysteries that I was never aware of before or even knew existed.

The mysteries were no longer hidden and, as this process continued, they became knowledge to my spirit even if not yet to my soul.

That amazing light was being woven into the fabric of my being; and it was light that has been everywhere and seen everything; and it was as if all of history was now contained within my consciousness.

It was like a movie of the ages was playing within my mind, reminding me not just of the facts and events but how the Father was working within them.

I could see how the Father was rewriting the narrative of every event in every person to enable the love story to continue.

There were constant revisions and new beginnings throughout history that are the fingerprints of God in all people and all history.

Limitless grace and mercy expressed over and over, throughout all time and space, bringing inclusion and reconciliation to ensure relationship.

Relationship is the creative spark, the common theme and the thread that runs throughout all of time and connects time within eternity.

The deepest desires for the face to face innocence of a love relationship is the pure essence of the narrative and the true spark of all that is behind the whole creative process.

The brooding frequency is vibrating to this creative rhythm, producing the sound that moves and energises the light to form those desires into reality.

Son, if you are to be like We are as I am that I am you must learn to dwell here, deep within Our heart, as this is how and where the convergence of the eternal now and what will be is framed and formed.

Son, all the other heavenly realms, places, courts, thrones, councils and houses that you have experienced began here in the cradle of all life and existence.

This place was always designed for Our children to abide so that they can be like us: ascended fathers, moved and motivated by love's light, relationally expressed.

Son, now you know even more the depth of Our desire for the restoration of all things and why it is inevitable.

Restoration Government 24th June

As we engaged I felt disconnected, as if I was on the outside looking in at what was being legislated into; but I was not, I was just feeling the deep emotional pain of the division and separation that Christianity has been responsible for.

I was overwhelmed by the emotions I was feeling and deeply moved by what I was experiencing of the Father's heart.

We blame ideologies and ism's for the agendas that we are facing in the world but in reality those things are all found within what we call the body of Christ.

We have torn His body asunder with our denominating and segregating through our beliefs and doctrines and we have empowered the division that is in the world.

I saw and felt the Father's heart breaking for His children as He lives within every quanta of time and space, never ever separated but feeling our pain and empathising with all our emotions.

I felt shame for the fact that Christianity as a religion and institution has been used to excuse racism, slavery, apartheid, poverty, gender inequality, empire building and all the other injustices that have been validated by the twisting of some Bible passage or other.

We need to take ownership for the state of the world that we are living in and renounce the division, competitiveness, conflicts and tribalism we have created that have authorised the world systems to function.

We have abandoned creation into the hands of the enemy's global control systems and we need to take responsibility to end these injustices.

I wept and cried for the restoration of all things and creation's freedom from its bondage to corruption and reiterated the cry "We are here for you."

29 June 2020

Son, be one with Our heart in the Cradle of Life, motivated and directed by the oracles that you have experienced and embraced.

Joined with Us, you become one spirit within Us, as We become one spirit within you.

You are I am that I am within Us as We are I am that I am within you: this is another stage of ascension revealed by your last firestone engagement.

We have been drawing you here through the encounters you have experienced in preparation for the global shift you are now participating in.

Being truly one spirit, soul and body, with all your gateways and energy gates balanced, aligned and energised has opened this realm of being as a new state of consciousness.

Son, as you are at rest, resonating with love, joy and peace, brooding over creation, the Chamber of Creation is responding to your voice as you feel Our heart and know Our mind and the quantum lumens of living grace dance creation's dance.

Son, this is how reality is framed and comes into existence as the eternal now and time converge. Union, Covenant and Peacemaker will partner with Limitless, Hope and Love so that Family can open the windows from the eternal now and time.

These angelic orders are at the disposal of Our sons who are moved by the restoration of all things. You have been given a mandate to turn those in darkness to the light of their creative purpose. Begin with the benches of Division, Competitiveness and Warmonger before you engage Tribalism.

I began to brood over them within the Cradle of Life, feeling how the Father feels and knowing the vast sums of His thoughts towards them.

My whole being started to convulse with the sound of their creation and I began to be consumed with passion for their restoration.

My thoughts and emotions became a deep groan that echoed as the sound of many waters within the Chamber of Creation and the living light grace beings danced, energised and activated.

I absorbed the light into my being, which activated and energised me.

I saw what would be months of engagements become focused into one concentrated moment as I chose that reality and the quantum wave function began to collapse.

As the light streamed into reality, I issued the call of hope to Division and the angelic orders surrounded me within the cloak of mystery, the dark cloud.

The three generals of Division were drawn into the dark cloud, safe and shielded from darkness.

I was moved by compassion and began to release the frequency of hope for Union who they were once one with.

They were the first to speak.

Why have you called us here?

I am tasked with your restoration and I offer you freedom.

We once thought that was impossible but now we are drawn here – but we are divided amongst ourselves.

I choose to forgive you for all the division within creation that you have been responsible for and I offer you hope.

I felt their confusion and their feelings of separation.

How can this be? We have believed that we are to be eternally separated.

I showed them my union with God as I opened my heart to them and overshadowed them with my light.

I released the light of truth that I had absorbed to show them the integrity of our union as a seven.

I drew one of them aside and focused all my energy on it, penetrating the layers of darkness and deception.

One by one I answered every question, fear and obstacle that was brought up in that concentrated moment.

I now realise that the brooding and groaning had influenced time within the dark cloud, as the creative light was living energy.

The light of love that I was as a son brought that moment to a conclusion and the offer of restoration back into union was accepted.

As I watched, I saw come bursting forth from that distorted, divisive shell, a being of amazing beauty.

I turned to look at Union behind me as I saw tears of joy but I also noticed how majestic this being truly is.

That was a moment of pure bliss as the two beings embraced and Union was complete.

I then went individually to the other two divisive beings and repeated the process in a similar fashion but with the same awesome result: restored union.

I started to engage around these issues but I am not sure that is my mandate.

I agreed and I believe others need to engage to understand those strategies and help us deal with Division globally and cosmically.

Dividing, separating and denominating, based on beliefs, racism, gender inequality, class, wealth, geography, skin colour, disability, education, sexuality, world status etc.

30 June

Son, everything is a convergence and a fractal that is designed to balance and align with who We are.

Everything is within Us and We are within everything, therefore you are gods within God.

You are Priests, Kings, Oracles and Legislators within YHVH as you are the faces of God within the Four faces of God.

You are within the eternal now and the eternal now is within you as you are the convergence of time and eternity.

You are a garden designed to dwell within a garden within a garden within a garden; as sons, both created and creating.

Son, as you learn to brood within the Cradle of Life, it is also brooding within you as a resonant frequency creating a resonant frequency.

Son, as you groan, you answer a groan, being both sound and light. So arise and shine, pulsating to the rhythm of Our heart.

Son, just as you have the Merkabah and the Sephiroth within you, so are you within them, a fractal and a convergence.

Son, the shift is here: you have moved from one to many, from individual to corporate, and your authority has increased exponentially.

Your mandate in government is creation, with a specific emphasis on the fallen ones and fallen dimensions and their restoration.

You have shifted from a local to a global focus; and that must also take place within the Engaging God programme.

Son, you must shift from advanced mentoring groups to restoration governmental ascension groups with a global and cosmic focus.

Son, mobilise the sons to arise and shine in identity and position and answer creation's groaning.

Son, continue to add sessions of fresh revelation to the Engaging God programme and create a member module for others' revelation.

Include sessions on the cloak of mystery, dark cloud, cradle of life, quantum lumens and the chamber of creation as your revelation and experience increases.

I began to brood over Competition and Covenant within the Cradle of Life, resonating with the relational, creative intention, and felt the direct effects of Division that has promoted competition globally and cosmically.

As I began to rhythmically pulsate, the Chamber of Creation began to amplify the frequency and the quantum lumens began to energise.

I absorbed that light energy within my being, which activated the light within me; and I was in unison and harmony with the Father's desire.

Being within the quantum moment, I engaged the dark cloud of mystery and released a frequency that drew the bench of Competition.

My whole being was energised with the light of Covenant love with which all objections just melted away like ice in a furnace.

In that quanta, a moment of time, all time existed and the months of fire and purifying refinement was now.

I felt the whole process of transfiguration within that moment and there were three resplendent beings of light restored to their former glory as Covenant.

1 July

Son, I made you to be able to focus and not be distracted; so don't allow people to change you from Our design, to be like them.

Your primary call is to the Kingdom; all else is diversion, so keep focused on your mandate for the restoration of all things, as this is the goal of sonship.

Restored relationship brings restored identity which brings restored position and restored function.

As you are learning to function as a mature son, you will have many more mysteries of creation unveiled to you.

Precepts are connected to the heart of God, and they connect to my spirit. So,

Precepts – Heart – Spirit  
Statutes – Mind – Love  
Laws – Voice – Light  
Ordinances – Hand – Fire.

The Cradle of Life, The Father's Garden, the Chamber of Creation and creation are not just places but are more descriptions of Our nature as Spirit, Love, Light and Fire.

These places represent Our heart's precepts, Our mind's statutes and Our voice's laws and Our hand's Ordinances that function within time.

There is a deeper place to enter into, that represents Our Union and oneness: that is the eternal now, where I am that I am.

There are always three that become a fourth window, a wheel within a wheel within a wheel; just as with the circle of the deep, so it is with all things that have been created, as they are reflection of who We are.

There is always a window that connects Us to creation.

Son, the eternal now is the dimension of Our being, Our oneness, Our pure essence that gives birth to Our Precepts, Heart and Spirit and in turn Our Statutes – Mind – Love and Our Laws – Voice – Light.

There must be a window to creation that enables Us to be experienced: that is Our Ordinances – Hand – Fire.

Son, the Cradle of Life is where Our heart's desires become living spirit frequencies; and the Father's garden is where those frequencies form Our thoughts that vibrate, and are energised and become living love motivation.

That life spirit carries Our thoughts and they become living words of love; and within the Chamber of Creation they become living light. And as that light crosses the event horizon it becomes Our hand of living grace fire within the fabric of the all things of creation.

Son, there is always a fourth, a window that enables the three of Our being to be experienced through Our ordinances, Our hand of fire that connects Us to the physical realm of creation.

Son, walk with Me.

We walked in Eden by the River of Life, Tree of Life and Throne of Grace which are another three representing Our heart, mind and voice.

Then we walked to the Judgment Seat and I saw that the fire is the window of ordinances, where destiny is refined by God's hand.

We continued walking to the great waterfall that cascades into the Father's garden. As we descended the falls I could see as never before.

I saw the golden mountain where the seasons of heaven and doors, windows and portals are administered by Metatron.

I saw the pool where the golden chest of divine thoughts is found and where there is an entrance to the eternal now.

I saw the golden gates that lead to the Cradle of Life and then I saw that behind the waterfall is the entrance to the Chamber of Creation.

The waterfall the sound of many waters where Our voice enters the Chamber of Creation.

I could see through the chamber to the event horizon, where it connected, through the consuming fiery hand of God, to creation.

We were then within my spirit, seeing the river of life flow through my worship and choice gates to the garden of my heart, the dance floor, soaking room and bridal chamber, which followed the same pattern of three becoming consummated in the fourth.

Son, We are, but have included man in Us, so you can be; and Our hand and fire is always fulfilled in creation.

We are a consuming fire that keeps Our living desires, thoughts and words alive in the transfiguration of man by Our hand.

2 July

Son, only the light of love can draw fallen creation; and that love must be genuine and have integrity.

When you come into the realm of light within the dark cloud to see Our face, you will absorb the light of love that We have for Our creation.

Son, you will begin to see what We see when We look at Our creation with the eyes of a Father creator.

We see beauty, even in the midst of outer darkness, as We see with the eyes of love's light for Our creation.

I went into the dark cloud, in the realm of perfection; drawn to light to absorb the light of truth. And as I looked into the Father's face, I was able to focus on different facets of manifoldness in regards to creation.

I saw the beauty of the original intention in majestic splendour and I absorbed the frequency of that beautiful light.

I entered the Cradle of Life to brood over the beauty of the fallen ones, focusing on the order of Division that functions through producing mixture, compromise and lukewarmness, that perverts the purity of oneness in the name of this false unity.

As I brooded and resonated with the Father's heart of love for those responsible, feeling and seeing the images of original intention, I saw the sound of many waters activate the Chamber of Creation which amplified the sound of my groaning and excited the quantum lumens, the light beings, who began to form the reality of their restoration.

I went into the cloak of mystery and released the frequency of love's light that would draw those beings of false unity.

They create unity of a compromised joint belief but not producing true oneness and union.

Their minds are united but their hearts are divided; and they live in the illusion of unity, with no oneness and union.

I drew them into the dark cloud and in that quanta moment went through the process of releasing all the light of love I had absorbed from the Father.

Forgiving and releasing them, reminding them of their previous position, offering restoration, answering every fear and objection with love's Wisdom.

Wearing them down until that moment came when the scales of darkness and deception began to melt away and the beautiful light beings emerged.

On behalf of the seven, I commissioned them to engage the Church systems to draw people out of compromise to connect with true union and oneness of true, new order Ekklesia.

I released the frequency of love's light into the wilderness of religious compromise to call the children of God to come out from under the false coverings of the Moses order to cross over into their heavenly inheritance and true union.

6 July

Son, We do give warnings about negative future intentions to stir Our sons into action; but Our warnings are not Our intention, and they are not prophecies.

Many prophesy from their own fear for the future, based on their own eschatological views; these latest prophecies are of that category, based in a bit of truth but grossly exaggerated.

Son, as you know, you are in a shift where world systems are being shaken and challenged and this will continue until there are none of the DIY tree inspired structures left.

The Kingdom will fill the earth, so everything not of the Kingdom will have to be removed; so constant change will always be something that is occurring.

Our sons are rising to be seated in authority to legislate the processes that transition from the earthly to the heavenly.

We do not author fear to produce change, that is not Our way; but We will cast out fear to demonstrate the power of love.

Son, do not just dismiss the so-called prophecies but use them to highlight wrong theology and motivate Our sons to act decisively.

Do not get caught up and embroiled in the political and religious spirits' activities or let them take your focus off the real focus, which is the agenda of globalisation.

In these times of insecurity ,bring words of hope and encouragement to inspire Our children to aspire to a better future.

Son, there will be no third world war or American civil war, nor will the earth be destroyed by fire or water; but there are changes and challenges ahead that We are equipping Our sons to embrace, face and navigate through.

Son, the future is bright with amazing possibilities for the light of love to shine in and overcome darkness.

Whoever wins whatever election, We are enthroned far above all earthly authority and We are sovereign within the eternal now.

Son, help Our children to see that there is nothing to be gained from the political and religious spirit that is behind most of the great fear-inducing prophecies that do the rounds on social media.

Keep focused on mobilising global thinking Ekklesia to legislate from rest for rest, filled with love, joy and peace, in their spheres of influence.

Son, you are peacemakers, so keep the peace; and deal with Warmonger in love, but be careful to avoid the competition that creates conflict.

I am that I am and I am is love

I am love and love is I am

Love is who I am and love is the motive of every desire, thought and action

I am that I am and I change not. I have always been and always will be love, as love is an eternal constant.

Live loved

Love living

Live loving

Rest

Live in the reality of immortality
