

I am going to review some of the things that were key in 2020

I will share my journals; that will include:

What God said in 2020

What God did in 2020

What does that mean for 2021?

17 August

Son, the world is reverting to the cycles controlled by the systems of DIY and is in competition through the political spirit and religious spirit.

The last four year cycle in the USA was the most divisive ever known and the election is going to be even more divisive.

These cycles are being fuelled by the religious spirit which is also divisive amongst itself.

The world is truly a reflection of the church system which is denominated and in conflict.

Son, legislate for peaceful transition to end all old cycles and replace them with new ages of truth and enlightenment characterised by rest, not war.

The orders never want to let go of power so there has always been a catastrophic and cataclysmic end to birth the new beginning.

It was so when all the empires lost their power and position in world affairs: Egypt, Assyria, Babylon, Persia, Greece, Rome, Israel.

Son, it is time for Our sons to usher in peaceful transition to end the present age and begin the next.

The earth shield is vital as well as new order Ekklesia rising who can engage with the Elementals to free the earth itself to cooperate.

The earth must be at peace to enable the shifts that must come to restore family to its rightful place by replacing nations.

The seismic activity to unify the land masses and reorder the tectonic plates to restore the oneness of creation itself must be legislated for.

Son, you have felt creation's groaning within many orders; now, from a place of rest, legislate for a peaceful transition in each order.

The children, the angelic, the dimensional, the physical, the earthly, the cosmic, the elements are some of the orders that will be restored.

Son, Our children need a realisation of the truth of who We are through a global awakening of consciousness to be enlightened to unconditional love and limitless grace.

I call for a global awakening of spiritual consciousness to love, joy and peace.

I call for the sons of God to rise up in union and oneness of heart, mind and purpose.

I call for restored union between the sons of God and angelic realms, the Elementals, the Creation.

I call for the Kings and Priests in union as Oracles and Legislators to be the convergence of the Union of heaven and earth.

I call for the peaceful transition of the age of Pisces to the age of Aquarius.

I call for the end of Division, Competition, Conflict and Tribalism with the sons of God to unveil the truth of unconditional love and limitless grace.

VISION DESTINY 2021 17

18 August

Son, rest in Our unconditional love and just be with Us as We are with you.

We are in your spirit as you are within the eternal now.

We are within your soul as you are within the 4 faces of God.

We are within the garden of your heart as you are within the garden of Our heart.

We are within the fabric of your being as you can be connected to the fabric of creation, as you have experienced.

We are active within the Merkabah and your energy gates as you are active within the Chambers of Destiny and Creation.

Son, learning to be within I am and aware that I am is within you is part of the true maturing process so you can continually be face to face, heart to heart and mind to mind.

As your consciousness awakens you will become more enlightened and rest will be a state of being.

Son, you can learn to live in the quantum moments where all time exists and expand your ability to expand and contract time into that moment of experience.

As you learn to live in that rest state every moment takes on increased significance as it could be an hour, a day, a week, a month or a year.

The only limitation is your consciousness's capacity to believe the possibilities and choose them.

Son, there is no difference in choosing a quanta of a millisecond or a millennia: only in your mind is there limitation.

Practise expanding your mind's ability to choose what happens in a quantum moment so that you retain the knowledge of the experience.

You can begin with you entering rest each day and then, when we engage face to face, I will open your eyes to see and know as we spend more quality time together.

Son, as you mature in this reality you can continually bring your future into your present, just as you have with the restoration of the fallen ones.

There are missions and quests that We have for you that would normally take months, even years, that will require that you can fulfil them in the moment and so live in rest.

Son, all time is living and active and is at your disposal so choose this reality whenever you need to but don't get trapped in the moment.

Others that you interact with during these moments may not have the capacity to retain the knowledge of your experience, so don't assume relationship.

You cannot relate to others on fast forward and rewind if they do not have this capacity yet, so use this for missions, not everyday life.

19 August 2020

I practised entering rest in a quantum moment; as my mind expanded the moment in fast forward, I felt the process of living loved, loving living and living loving in an instant.

Son, you have done well; come walk with Me.

We walked to beyond beyond and emerged into the dimensional anteroom.

There are others you must meet who are representatives, as they have felt the frequency ripples of hope that have been released.

There were many who came to form a small crowd, creating an atmosphere of excitement and apprehension.

They were beings of all forms, so I reached out to them with my mind with a welcome and an introduction.

They dispensed with the niceties and asked:

Can we be free? We all know we have been deceived and we all have seen the light of sonship and the hope for freedom.

Yes, you and your whole dimension can be restored if you become ambassadors of hope to them.

I looked at the Father, who seemed to be hidden from their sight and He said "Practise what you have learned."

So one by one I engaged each race and in a quantum moment,

I brooded, released the grace of the Quantum Lumens, went into their dimension, saw their bondage and the connection tower to our dimension, used it to transmit hope and started the revolution.

This process repeated for all 25 dimensions: all engagements happened in an expanded moment and I retained the knowledge of each encounter.

This ability increases the capacity for legislation greatly and makes the possibility of the restoration of all things an inevitability.

The Father then took me into the realm of eternity, and it was like the whole place functioned in quantum moments, where the Father showed me that He could see and feel all things in all moments for all creation.

Son, as Our sons mature to become ascended fathers they too will have this capacity to connect and care for all they create.

This place is different to the transcendence of the eternal now dimension as it is within time and immanent.

Son, there is so much We want to show you and impart but this must be a relational process that you grow through.

Son, make sure you are not limited and restricted by time entanglement and keep practising quantum moment expansion daily but don't be tempted to try to do so with our times together.

We are infinite and although We can choose to exist in all moments of time, We cannot be expanded.

I had so many questions fill my mind at that moment but stayed in rest and just enjoyed being immersed in the oracles of the Father's heart, feeling the passion for creation and its restoration.

20 August

Son, creation is Our pride and joy and mankind is the pinnacle of all that has been made but that does not lessen Our love for all things.

You have felt what We feel so you know the true reality that motivates Our desire for the restoration of all things back to relational union and oneness with I am.

The union of all dimensions and all beings is central to restoration as We are within all and all is within Us.

Son, reach out with your spirit into creation: what do you sense and feel?

As I overshadowed creation, I felt its deep longing for a return to what was, as the memory was still there, a faint echo within the groan.

I went deeper, further, to touch the living beings and I felt a shift from what I had previously experienced.

There was less conflict and confusion, less angst, and amongst all of the whirlpool of emotions was hope, stronger and more defined than before.

Son, what you are detecting is the result of the increasing frequency of love that Our sons are manifesting through their positions of government.

I consciously connected to the earth shield and felt the joyous union of hearts and minds in all its celebration of diversity.

Man, angelic, witnesses, restored angelic, and the 7 spirits, but no dimensional beings.

I reached out further with my spirit into the dimensions with an invitation to participate with us in shielding and protecting the earth as guardians.

I went into the anteroom to speak with those who responded and there were a number of representatives present.

I communicated my invitation in person but it was kindly rejected, along with the explanation that they were not sufficiently restored.

There would be danger as there is still great opposition to the changes and animosity towards mankind.

Son, there is still much to do and great wisdom is needed when engaging but your heart was good and there will come a day when union will be dimensional.

Son, Enoch and Metatron are not the same being, as you already know; so be very careful that the mixture of Jewish mysticism does not infect your union.

True knowledge comes from the Truth, not books, which can impart information; but wisdom can only come relationally.

Do not be tempted by knowledge; only pursue the truth found in the light of Me as the Way, the Truth and the Life.

I am true reality and the light of truth shines through My being as through Us relationally, as We are wisdom in union and oneness.

Wisdom came and took me to her heights, where she opened the pillars that are the foundations of the earth.

There she showed me how the cube connected creation through man's sonship and the earth's dimensional position and centrality.

She also warned of the dangers of the mixture contained within Jewish writings and their connection to the cabals and global control systems.

Purity maintains wisdom which protects against the twisting and perverting of the truth and the frequency of love must resonate within its harmonics.

Wisdom looked deeply into my eyes and I looked into the deep pools of her being and I felt a peace that brought a calm to my concerns.

Son, time is your servant, so continue to practise living in the quantum moment to create history.

24 August 2020

Son, rest within the circle of Our love and draw from the light of love and life for all your needs.

Here within the light of love is the limitless grace of Our infinite supply of all things that you will ever need to be a son and fulfil your destiny.

Here is all the revelation, wisdom, insight, understanding, power, resources, truth, prudence, mercy, joy, peace, kindness, goodness, faithfulness, gentleness, patience, love and humility; and it is all freely available, without limitation.

Son, there is not anything that you will have need of that is not freely and abundantly available within I am that I am.

The Tree of Life is always in season, overflowing with the limitless grace that gives you the ability to create all the things that you need.

As a son, creation itself was also designed to release its bountiful supply from the riches of its glory just as its freedom is from the riches of your glory.

Son, all things were created with the need to be in union and oneness of relationship in the covenant of love.

Son, this is why division and competition is so alien to who We are and how We desire all things to be.

Oneness and covenant in a loving union of being is the way We formed creation from the desires of Our heart in the Cradle of Life; and that frequency resonated with life energy and activated limitless grace light.

Son, focus your attention on the new covenant of lovingkindness and beware of the mindsets of the path of independent knowledge.

Seek to be in union and oneness with all of creation, filled and overflowing with unconditional love for its freedom and complete restoration.

There is nothing that We created that cannot be restored through the light of love shining brightly, singing joyfully its song of peace.

As you rest here, expand the moment to encapsulate Our pure loving desires as you have experienced through Our oracles.

Son, every quantum moment is filled with all the potential creative realities necessary to fulfil your destiny aligned to Our heart.

Our sonship inheritance is to function with the creative ability to choose realities from all the quantum possibilities.

Son, come look deeper into the radiance of Our glory.

I found myself in the light realm of perfection, hidden within the dark cloud, looking intently at another wondrous facet of that face of infinite beauty.

The deeper I looked, the more everything was as it should be, and I felt who I am with a certainty that I had never felt before.

Everything was crystal clear: no doubts, no ifs or buts, just perfection. I felt like nothing could ever be better than this.

I was at rest: complete, one, and whole; as if there was never anything else than this moment.

No past, present or future, just now; perfectly living at rest in this one unlimited moment of pure love, joy and peace.

Son, every moment is meant to be like this, perfectly filled with all things as they were just meant to be.

Son, this is your dwelling place within I am so you can be abiding.

Let all life be lived loved from this moment of loving living and living lovingkindness.

25 August

Son, the thrones of the elements need to be occupied by the sons of God for creation's restoration. Relationship with the Elementals must be restored for creation to be set free.

The focus of Our children needs to be turned from their DIY agenda to the sonship mandate of dominion for blessing.

The global agendas must be neutralised as they regard the earth as an asset to be stripped and that is an abuse.

The relationship with creation needs to be restored so the symbiotic union that was Our intention can function for the benefit of all.

The cosmos is taking its cue from what is occurring in the earth sphere and what is being broadcast through the communication networks is a false system.

The other cosmic dimensions have traded on this twisted agenda, perverting Our original intentions to their own agendas even further.

The sons must rise and shine love's light to broadcast a higher frequency that will disrupt the false agendas and create hope.

Son, all of the parts of creation are interconnected and when one suffers they all suffer; it is time for love, joy and peace to spread, like a virus infecting with good.

It is time for global Ekklesia to rise from the ashes of the church system and be storehouses for the coming harvest.

We are calling Our children to the global awakening to a consciousness of true love reality but Our sons need to be ready to receive the harvest that is being prepared.

Son, these Ekklesia must be free from mixture and pure of heart and purpose to receive the harvest. There is a religious spirit agenda to rob the purity of Our sons by deceiving them with old covenant mindsets linked to Jewish mysticism.

Son, you are mandated to issue a warning against the infiltration of the global Ekklesia of the political and religious spirits' agendas through Hebraic culture and traditions.

Son, the old covenant was not everlasting: it became obsolete and faded away until it was totally removed at the destruction of Jerusalem and all it represented.

Son, every generation since AD70 has been blinded by the deception that they are the last and have been distracted from the restoration of all things mandate.

Every generation has been deceived by many false doctrines into thinking that they will usher in the ages to come.

Son, make sure this Joshua generation is warned to guard against the end times agendas of the rapture and millennium that will emasculate them and neutralise their effectiveness for restoration.

Son, the eschatology of restoration is a book that must be written to warn and prepare the Joshua generation for their restoration mandate.

The infiltration of the old that infects the 'one new man in Christ' new covenant must be exposed; and the divisions and separations of denominating doctrines be brought into the light of truth.

Son, I detect your questioning, how so many could be wrong and so few right; but that is the wrong question to be asking, because those have always been the doubts that forerunners have.

The real issue is, do you trust Me and the journey that I have taken you on, so that you will not look or go back to the safe place of consensus?

Son, forerunners always face being alone at times on their journey, and that is a lonely place; but you are not alone, there are others who are joining and merging the streams.

Son, do not waver; and trust that you are on the right path, so do not hold back, write the book that will reveal the eschatology of restoration so Our children can be free from religious and political deception.

26 August 2020

Son, Our heart is always for union and oneness but there are those who you cannot be one with as their hearts are turned to a different agenda.

Be careful that your desire for union does not create mixture rather than oneness, as relationship is possible without union.

Son, the family relationship within Us is guaranteed but must be maintained outwardly by desire and choice; but union and oneness requires there to be one heart and mind.

If you are to be in a governmental group, there must be a mandated agenda for that group that comes from Our heart.

Son, too many diverse agendas make union impossible for that group but relationship must always be maintained.

Communication of heart and mind must be worked at so openness and transparency can flourish. Son, when you seek you will find; so always seek Our heart first so you can collaborate with Our mandates and agendas.

Son, come walk with Me. We were in the realm of perfection, walking in the realm of light. Son, feel the light, don't just see it visually, as it is alive with possibilities, bursting with creative energy.

Feel and sense that life force and open your heart to it so it can feel your desire and be activated by it.

Your desire is created when you are joined to Us and one heart with us within the Cradle of Life as you brood.

The resonance of your brooding creates the sound of your desire and that excites the living light with possibilities.

Son, you know the process but ensure the process is relational by opening your heart to the scrutiny of perfection's light.

Son, come here to absorb the light of perfection before you brood in the Cradle of Life and that will ensure a purity without mixture.

When you engage as groups you have permission to open this realm of perfected light so that you can engage the fallen ones effectively.

Son, come deeper into the light of Our being in this realm of perfection, as this is where the eternal now can converge with your time.

Son, this will help you live from the eternal now state within time to become the convergence as you can be one, at rest, but still moved by the events in time.

Son, learn to live, move and have your being from within Us; but express your being as the light of love within time.

The light realm of perfection is filled with the light of Our being as this is the light of love.

The light realm of perfection is completely attuned and synchronised with who We are: that is why it casts no shadows.

We are beings of light and our destiny is to shine love's light into creation to bring freedom.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down, and start thinking of the name of God, YHVH.

Breathe in deeply and exhale slowly Yod.

Breathe in: Hei; and out: Vav.

Repeat in Hei, out Yod, in Hei, and out Vav....

Be still and know that I am God.

I am love, I am joy, I am peace.

I am that I am and I am is love, joy and peace.

I am love and love is I am

Love is who I am and love is the motive of every desire, thought and action resulting in joy and peace.

I am that I am and I change not.

I have always been and always will be love, as love is the eternal constant.

Live loved

Love living

Live loving

Rest

Live in the rest of immortality.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.
